

Dividing Whole Numbers

Name _____

Date _____

Divide.

1. $63 \overline{)49,140}$

2. $54 \overline{)24,300}$

3. $91 \overline{)820,850}$

4. $86 \overline{)68,807}$

5. $73 \overline{)29,721}$

6. $58 \overline{)43,500}$

7. $92 \overline{)55,209}$

8. $65 \overline{)63,245}$

9. $46 \overline{)43,746}$

10. $75 \overline{)73,650}$

11. $85 \overline{)57,800}$

12. $76 \overline{)63,769}$

13. $103 \overline{)3720}$

14. $259 \overline{)21,497}$

15. $481 \overline{)32,708}$

16. $607 \overline{)126,260}$

17. $570 \overline{)263,977}$

18. $349 \overline{)16,098}$

19. $462 \overline{)23,123}$

20. $709 \overline{)19,800}$

Estimate by rounding each number to its greatest place-value position.

21. $2967 \div 62$ _____

22. $1904 \div 36$ _____

23. $38,416 \div 47$ _____

24. $356,124 \div 18$ _____

25. $423 \div 15$ _____

26. $76,032 \div 413$ _____
